## **DETAILED ACTION**

### ***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claim 1, drawn to mowers characterized that a third mower selectively restrained against pivoting, classified in class 56, subclass 6.
  - II. Claim 2, drawn to a tow frame mid link, classified in class 180, subclass 53.7.
  - III. Claim 18, drawn to a control circuit for starting or stopping operation of mowers, and a handheld remote control device actuating the control circuit of the control box, classified in class 341, subclass 176.
  - IV. Claim 25, drawn to a mid link carrying a fuel tank and internal combustion engines and fuel tanks for three mowers, classified in class 180, subclass 65.1. It is noted that Group IV is not clear if there are total of 4 fuel tanks claimed, or the fuel tank on the middle link is supplying fuel for each mower.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions Group I (claims 1, 17-20, 24, 28-29) and Group II (claims 2-15) and Group III (claim 18) and Group IV (claim 25-27) are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have

different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions the mower pivoting selective restraining (claim 1), a tow bar mid link (claim 2), remote control & circuit & box (claim 18), fuel tank & combustion engines (claim 25).

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

It is noted that allowance of an application is based on the allowability of the **independent** claim. Applicant entitled to examination of **one** invention per application.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Árpád Fábíán Kovács whose telephone number is 571 272 6990. The examiner can normally be reached on Mo-Th.
